Lincoln, Canterbury

# Lonza NZ - Advances in Crop Biocontrol

## Opportunities? What solutions are we looking for?

- Systems? Low risk, ND residue, IPM, resistance
- Acceptable; efficacy, consistency, shelf-life. Economics

## Who have we collaborated with?

- CRI's, Universities, crop sectors, growers
- Developers, manufacturers (local & global)

## How is our progress?

- Microbial, Bioactives, Biochemical, Natural. Technology?

## Challenges - constraints?

- Collaborators - early engagement
- Stability, alive or dead? Formulation can enhance, can't solve all
- Regulatory - data pack? Exempt? Industry & export requirements?
- Market potential. Timelines. Rol.
- Education (pre & post launch). Expectations.. *'How to'.. &.. 'What not'.. to do*
