TO HONG KONG

INTRODUCTION

Hong Kong, often considered the gateway to China due to its unique status as a special administrative region, offers a rich source of opportunities for overseas investors looking to capitalize on the continued growth of the Greater Bay Area – a scheme initiated by the Chinese government to link Hong Kong and 10 other cities along the Pearl River Estuary and form an international technology and innovation centre rivaling that of Silicon Valley.

With its strong exposure and international integration, Hong Kong has become the go-to stepping stone for Chinese companies looking to expand abroad. New listing rules adopted by the Hong Kong Exchanges and Clearing Limited (HKEX) chapter 18A allows pre-revenue biotech companies to be listed on the exchange. A first in Asia, it ensures more capital can flow freely towards a sector that's been largely deprived in the region until recently. As of 30th June 2021, there are over 50 healthcare and biotech companies had submitted IPO

applications, including 19 pre-revenue biotech companies pursuing a Chapter 18A listing and one international issuer. Since its launch in December 2019, the Hang Seng Hong Kong-Listed Biotech Index (HSBK BIO) has generated a return of 55%, or an annualised return of 40%, which is a clear validation of the maturing sector. As such, Hong Kong has the potential to be at the epicenter of Asia's biotech revolution and it is our hope that BIOHK2021 will help set this in motion.

As a city with a rich history in industrial development and innovation, and one that is frequently coined "Asia's World City", there is no better place to bring biotech companies from East and West together other than here at BIOHK2021. The first of its kind in Hong Kong, the convention represents a new chapter both for the local biotech industry and the city itself. Take charge and seize the many opportunities available and engage with global industry leaders at BIOHK2021!

BIOHK2021

簡介

粵港澳大灣區（GBA）是由中國政府發起，將香港和珠江口其他10個城市連接，形成一個與美國矽谷相媲美的國際科創中心，旨在令海外投資者憑借粵港澳大灣區的持續經濟增長，獲得豐富的發展機會。依托強大的知名度和國際一體化優勢，香港已成為中國企業尋求海外拓展的跳板。香港交易所採用新的上市規則，允許生物科技公司證明其特點，即使不符合盈利測試或收益測試的前提下，亦可獲准根據第18A章上市。作為亞洲第一個實行該政策的城市，這項政策打破了資本流通壁壘，確保了更多的資本能夠自由流向本地區。截至2021年6月30日，已有超過50家醫療保健和生物科技公司提交了首次公開募股的申請，其中包括19家未有盈利的生物科技公司和1家國際發行人。自2019年12月推出以來，HSHKBIO*已產生55%的回報，或40%的年度回報，這是對生物科技行業的肯定。因此，香港有巨大潛力成為亞洲生物科技革命的中心，我們希望BIOHK2021將成為推動這一進程的里程碑。

香港作為一個具有豐富工業發展和創新歷史，同時又被定義為“亞洲國際都會”的城市，BIOHK2021是將東西方生物科技公司聚集在一起的最好機會，為本地生物科技產業翻開新的篇章。抓住機遇，與全球業界領袖在BIOHK2021攜手合作！

BIOTECH KALEIDOSCOPE INFINITE POSSIBILITIES

生物科技萬花筒，無限的可能

萬花筒 KALEIDOSCOPE

A popular children's toy that when rotated creates a continually changing symmetrical pattern from the loose bits of glass inside the tube and the mirrors set towards one another; the kaleidoscope is symbolic of what we hope BIOHK2021 brings to biotech in the region; a continually shifting scene with **infinite possibilities** and **no limits** to what can happen.

Biotech's future is in Asia and it is our mission to make Hong Kong the centre of it.

一種兒時流行的玩具，旋轉時會從筒內的玻璃碎片和鏡子向彼此擺放的位置連續產生不斷變化的對稱圖案；萬花筒象徵我們期望BIOHK2021為香港的生物科技帶來千變萬化的可能。

生物技術的未來就在亞洲，我們的使命是使香港成為未來亞洲生物科技創新中心。

FUTURE OF BIOTECH IN THE REGION

生物科技在區域內的未來發展

Out of China's 199 science parks, 111 are biotechnology parks, with 93 concentrated in the Greater Bay Area.

Under the influence of the epidemic, China's medical industry has taken off. The amount of private equity financing, IPO and M&A transactions in the whole year broke through 45 billion US dollars, with the efforts of entrepreneurs, investors and investment banks.

China's DNA sequencing market is expected to grow from 7.2 billion yuan last year to 18.3 billion yuan by 2022, studies show that it is growing much faster than the overall global market because of the rising income and growing investment in health care infrastructure.

Hong Kong Stock Exchange's biggest listing reform in 25 years (effective from April 30th 2018) sees the establishment of a new biotech chapter allowing biotech companies that are pre revenue or that are not profitable to be listed – a show of the HKEX's commitment to developing a biotech ecosystem.

Guangdong - Hong Kong - Macao Greater Bay Area (GBA) was established in 2017, promoting joint and coordinated regional economic development.

在中國199個科學園區中，有111個是生物科技園區，其中有93個集中在粵港澳大灣區。

中國醫療行業在疫情的影響下反而迸發出了騰飛態勢——全年私募融資、IPO和並購交易金額突破450億美元，這是來自創業家、投資者以及投行的付出和努力。

研究顯示，到2022年中國的DNA測序市場將從去年的72億元增長到183億元人民幣。由於收入的增加和對醫療基礎設施投資的增加，增長速度將領先全球市場。

香港證券交易所25年來最大規模的上市改革（自2018年4月30日起生效）開啟了生物科技改革的新篇章，允許未有盈利或收益的生物科技公司在證明其具備的特點後，亦可獲准上市——成為了世界第二大生物科技上市平臺。

粵港澳大灣區（GBA）成立於2017年，旨在促進區域經濟合作協調發展。
